HELP REDUCE MAINTENANCE COSTS ON OVERHEAD CRANES

LOAD LIMITERS

ROPE AND CHAIN CRANES AND HOISTS

- * Reduces risk of accidents
- * Protects against overloading of Crane and supporting structures
- * Quick and easy installation & available for all capacity cranes
- * Available preset or easily calibrated on site
- * Reduces maintenance costs
- * Minimizes down time
- * Automatic reset by reducing the load

CONDUCTOR BAR

- * Available in steel and copper
- * Quickly and easily installed
- * Supports required only every 1.5m
- * Also available in a compact cluster range

SIDE PULL PREVENTERS / ROPE GUIDE PROTECTOR

Prevent side pulling and protects rope guides and drums on most multi-fall Cranes and Hoists.

- * Prevents dragging of loads
- * Easily fitted to any Crane or Hoist
- * Reduces down time
